

## **Graduate Program Position – Somerset Aggregation at Northmark**

Position Title: Stockperson / Graduate Agricultural Trainee

Location: Brisbane Valley

Employment Type: Full-time

Reports To: Property and Operations Managers

---

### Position Overview

Join our dynamic team as a Graduate Agricultural Trainee, where you'll gain hands-on experience across all aspects of our agricultural business. This program offers a unique opportunity to develop skills in livestock management, property operations, and strategic business planning, preparing you for a rewarding career in the agriculture industry. You'll rotate through on-farm and office-based roles, contributing to day-to-day operations and future business growth while receiving mentorship and professional development support.

---

### Key Responsibilities

- **Livestock Handling:** Participate in mustering, yard work, and cattle health monitoring using low-stress stock handling techniques.
  - **Property Maintenance:** Assist with fencing, weed control, and basic machinery repairs.
  - **Pasture Management:** Support rotational grazing plans, pasture budgeting, and paddock improvement strategies.
  - **Data Management:** Maintain accurate digital records of livestock performance, treatments, and operations.
  - **Business Operations:** Contribute to strategic planning, infrastructure development, and policy implementation.
- 

### Key Skills and Competencies

- **Animal Handling:** Knowledge of or willingness to learn low-stress handling methods using horses, motorbikes, and working dogs.
- **Practical Skills:** Basic competence in fencing, machinery operation, and general property tasks.
- **Problem-Solving:** Ability to identify challenges and implement practical solutions.
- **Teamwork:** Strong interpersonal and communication skills with the ability to work collaboratively.
- **Flexibility:** Adaptable to working independently and in a rural environment.

### Qualifications and Requirements

- Preferred: Experience in livestock handling, property maintenance, or agricultural practices.
  - Advantageous: Familiarity with tools like Microsoft Office, AgriWebb, and Maia Grazing.
  - Desirable: Degree or diploma in agriculture or related fields.
  - Essential: Current driver's license.
  - Preferred: Experience with horses and motorbikes.
- 

### What We Offer

- A structured program providing exposure to all facets of our business.
  - Training opportunities, including low-stress stock handling and operational planning.
  - Mentorship from experienced agricultural professionals.
  - Involvement in strategic decision-making for long-term business growth.
  - A competitive remuneration package tailored to your skills and experience.
-
